PART III:

A - Translation:

Since the 19th century, energy consumption has kept increasing exponentially. In 2005 the world consumed as much energy as it had done between 1950 and 1960. Efforts are at present aimed at promoting activities which shall no longer emit toxic products and which will enable the poorest to meet their basic needs.

B - Writing:

No standard answer
Marking criteria will be discussed
and agreed upon on the
first day of marking
