### DEVOIR DE CONTROLE N°1

#### Task One: Put the bracketed words in the correct form or tense : (7pts)

Every year, all over Europe ambulances come to the aid of millions of people. A recent study (1) **(suggest)** almost half of the cases could be treated on the spot and do not need hospital care. On that basis a European research project aims to create a Smart Ambulance that can respond (2) **(fast)** and comprehensively to emergencies. The (3) **(crucial)** aspect of the smart ambulance is its ability to send and receive data, which helps medics make diagnostic (4) **(decide)**. Andy Newton, Chair at College of Paramedics expects this feature to be further enhanced in the future: "Technology (5) **(currently/move)** forward, and at an increasing pace. I hope we (6) **(see)** more use of internet enabled technologies, such as telemedicine. We also have in this project the capability of (7) **(carry)** a mobile laboratory in the vehicle, and X-ray technology is on the horizon."
